

FREEDOM FOR PALESTINE

**HUNDREDS DEAD.
THOUSANDS WOUNDED.
TOWER-BLOCKS DEMOLISHED.**

Gaza – an open-air prison into which the Israelis have driven two million people – is under attack again.

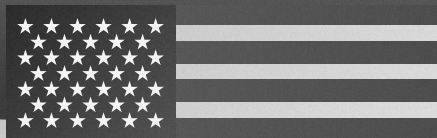

For Israel's corrupt far-right prime minister Benjamin Netanyahu, the war is a welcome distraction – triggered by the latest Zionist land-grab, with Palestinian homes at Sheikh Jarrah in East Jerusalem now facing the bulldozers.

This is the latest in a 70-year process of violent dispossession. Hundreds of thousands of Palestinians have been driven from their homes, their farms, their livelihoods, to make way for foreign settlers. Hundreds more are evicted every year. Israel is a predatory colonial settler-state based on ethnic-cleansing.

This was formalised when the Knesset declared Israel to be 'the nation-state of the Jewish people', in which only Jews have 'the right to exercise national self-determination'. Israel defines itself as an apartheid state – one based on institutionalised racism and exclusion.

ACR

WHO PAYS FOR THE BULLDOZERS AND BULLETS?

THE UNITED STATES.

Israel receives a quarter of all US foreign aid, a total of \$4 billion a year. Most is spent on arms. 75% of contracts go to US firms, making vast profits for arms-dealers. Israel is the vicious guard-dog of US imperialism in the all-important, oil-rich Middle East.

The Tories accuse us of 'antisemitism' for standing with Palestine. They are liars. They are the racists. They peddle Islamophobic and anti-migrant racism. We fight all forms of racism. We stand with all the oppressed. That is why thousands of Jewish people are marching for Palestine today. Together we say, 'Always with the oppressed, never with the oppressor!'

Stop the massacre in Gaza!

End the occupation of Palestine!

Stop arms sales to Israel! Cut all economic links!

Fight the militarised police states worldwide!

Fight the corporate capitalist system behind them!

Solidarity with all popular struggles against exploitation and oppression!
